KALVARA

Philosophy

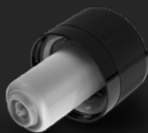

Kalvara was born from a belief that enjoying the effects of cannabis could be easier, cleaner, and more consistent. Our aim was to create a smoke-free, no-guesswork alternative to other cannabis consumables. With our background in the adult beverage industry, we developed an all-natural cannabis-infused drink that delivers a precise dose of THC every time. Through a rigorous process of testing and trials, plus the benefits provided by the patented technology of the nitrogen-pressurized Vessl™ cap, we created Kalvara. Formulated for high bio-availability and rapid onset, we believe that Kalvara is the cannabis drink the world has been waiting for.
